

Wrap-Around Facilitation Training

Introduction to Wrap-Around Facilitation

Waiver Rules

- The family has a choice about who will be Wrap-Around facilitator for their child and POC. Your participation is possible in part because the family has agreed to your role.
- Not all children with SED are eligible for the Waiver.
- Financial eligibility for the Waiver is based on the child's income but a family may also have some financial obligations for Waiver services.
- Completion of the application for Medicaid benefits for a child found eligible for the Waiver is the responsibility of the family. However, the CMHC can provide information about the application and support for this process.
- Never answer items on the CBCL for a child or family, but do be ready to explain a question and encourage the family to give an honest answer.
- The CAFAS is never a responsibility of yours; this is the QMHP's job.
- The official start date of the Waiver for a child is the date the family chooses the Waiver, as documented on the Family Choice Assurance Document.
