

Guide to Behavioral Toolbox

Course Description

This course is a guided tour of how to use the Behavior Toolboxes. The Child and Adolescent Behavior Toolboxes are aimed at increasing one's repertoire in behavior management skills. Completion of this course will give the provider more behavior management options and also allow the provider to assist parents/caretakers to increase their behavior management skills.

Course Objectives

Upon successful completion of the on-line course "Guide to Behavior Toolbox" the participant will have received a score of at least 80% on the Post Test. To attain this score the participant will have a general understanding of:

- The Child and Adolescent Behavior Toolboxes
- The Ways in Which the Toolboxes are Organized and The Behaviors they Address
- How to Use The Child Behavior Toolbox
- How to Generate Reports from the Toolboxes
- How to Best Share Information from the Toolboxes with Parents or Caretakers

Topics Covered in Guide to Behavioral Toolbox

- Description of the Child Behavior Toolbox (CBT) and the Adolescent Behavior Toolbox (ABT)
- The Organization of the CBT and ABT
- Behaviors Addressed in the Toolboxes
- Practice Situations – Using the CBT
- Generating a Report from the Toolbox
- Sharing Information with Parents/Caretakers

CEU's Awarded Upon Completion 3
